Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 26-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On line 5 of newly-amended independent claim 2, the use of the word "flexible" is indefinite and unclear in context in that the term is relative. No material is absolutely rigid. All materials have some degree of flexibility. Thus, it is not clear in context what degree of relative flexibility is meant by the use of the word "flexible" in claim 2. The same problem occurs in the newly-added dependent claim 27.

In independent claims 2 and 26 and in dependent claims 3, 9, and 20, since λ_{\min} and λ_{\max} (including fractions of these) are not defined in the claims, limitations relating to the wavelength are unclear and have no limiting effect.

Similarly, in independent claims 2 and 26, the term "sub-wavelength dimension" is indefinite and unclear in that the wavelength used as a point of reference is not defined.

In dependent claim 28, "bigrating" is unclear in context. Please see 37 CFR §1.75(d)(1).

In dependent claim 29, the term "actively variable refractive index" is unclear in context. Please see 37 CFR §1.75(d)(1).

Newly-added dependent claim 30 is unclear in that it attributes the positions of both conductors and the "dielectric" to the placement of only one of the conductors, where it would be all three (each conductor and the dielectric) that are "arranged" (line 2).

Dependent claims 3, 5-15, 18, 20, 22, 23, and 27-30 are unclear in that they depend respectively from unclear independent claims 2 and 26.

3. Claims 2 and 26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 3, 5-15, 18, 20, 22, 23, and 27-30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art herewith is of interest as showing conductors with slits in them that may be placed against dielectrics as claimed in this application.
